<b>Capital Expenditure Not in Business Plan</b>		
Printer	\$0.00	\$225.00
	<b>\$5,000.00</b>	<b>\$5,015.00</b>

### Reasons for difference in Capital Expenditure

- Computer and some tools were on special so cheaper than originally quoted.
- Business Cards and letterhead were more expensive than originally quoted due to the need to get a business logo designed.
- As a result of some expenditure being lower than originally expected the difference was used for the purchase of a printer which is needed for the business in order to send invoices, letters and other documents.
